– “In playing ball, and in life, a person occasionally gets the opportunity to do something great. When that time comes, only two things matter: being prepared to seize the moment and having the courage to take your best swing.”

Weather Policy

Ballparks of America will try to maintain the originally planned schedule as much as possible. However, in the event of inclement weather: The first priority is always to reach the minimum number of games for each team. We will always attempt to have a championship game.

In order to achieve these goals, Ballparks of America reserves the right to change the tournament schedule as needed, including shortening games.

If a game is suspended due to weather, we will make every effort to finish the game from point of the suspension. If the game is unable to be finished, it is considered complete if:

6 inning game – 3 innings completed (2 1/2 if Home is winning)

7 inning game – 4 innings completed (3 1/2 if Home is winning)

If a game cannot be resumed, the score will revert back to the last completed inning.

In the event of a rain delay, each team must remain in its designated dugout until otherwise notified by a Director. In the event of severe weather, you will be directed by a Ballparks of America employee to the nearest storm shelter.

Weather Emergencies

In the event of a weather emergency, the Manager on Duty is responsible for making decisions. If there is any concern for the safety of the players, contact the announcer at the closest field and have them relay any information or concerns to the Manager of Duty. The Manager on Duty will make the decision on a case-by-case basis.

Ballparks of America has a weather alarm that alerts to lightning in the area. A siren will go off and all campus visitors will be directed away from the fields for a minimum of 30 minutes. If weather causes changes to the schedule, decisions will be made as mentioned previously in the Tournament Rules.

Scheduling

- The schedule will be posted 7 days prior to the tournament, it will not be final until the night before the first game. Coaches should regularly check the schedule for updates.
- Teams must be at their assigned field ready to play fifteen minutes before scheduled game time.
